THE METEOROLOGICAL MAGAZINE

VOL. 104 NO. 1230 JANUARY 1975

CONTENTS

Page

The warming and moistening of cold air masses by the sea. K. Grant 1

An improved satellite nephanalysis. R. Harris and E. C. Barrett 9

Forecasting convective thunderstorms, hail and shower activity in the Midlands. N. J. Atkins 17

A biennial cycle in the number of fine days in the Netherlands. C. J. E. Schuurmans 24

Review

Analytical methods in planetary boundary-layer modelling. R. A. Brown. *F. B. Smith* 28

Notes and news

Meteorological Office awards to captains and navigators of civil airlines 28
COVOS/COMESA Conference 29
Co-operation in motorway fog studies 29
Hercules participates in GATE 29
British infra-red detectors in NASA weather satellites 29
Laser radar installation at Beaufort Park 30
Building Climatology Section set up 30
Pressure data for the British Gas Corporation 30
Contract for data buoy 30
Analyses of WAMFLEX project 30
Transfer of radiation work 31
Computerized radiosonde equipments 31
Pollution sampling over the North Sea 31
Computer Output Microfilm in the production of the *Monthly Weather Report* 31
Study of climatic variation 31

Correction 32

NOTICES

It is requested that all books for review and communications for the Editor be addressed to the Director-General Meteorological Office, London Road, Bracknell, Berkshire, RG12 2SZ, and marked 'For Meteorological Magazine'.

The responsibility for facts and opinions expressed in the signed articles and letters published in this magazine rests with their respective authors.
